Hyunwoo Shin

hyunwoos@vt.edu | https://hyunwoo-shin.github.io/

Education

Virginia Polytechnic Institute and State University — Blacksburg, VA
Ph.D. in Industrial & Systems Engineering — *Aug 2021 – Present*

Korea Aerospace University — Goyang, South Korea
M.S. in Logistics, School of Air Transport, Transportation, and Logistics — *Mar 2018 – Feb 2020*

Korea Aerospace University — Goyang, South Korea
B.S. in Logistics, School of Air Transport, Transportation, and Logistics — *Mar 2012 – Feb 2018*

Publications

[1] **H. Shin**, S. Tunc, X. Chen, J. M. Reynolds. "A Comprehensive Simulation Framework for Evaluating U.S. Lung Allocation Policies." *(under review at Health Care Management Science)*

Research Experience

Summer Internship — June 2025 – Aug 2025
National Renewable Energy Laboratory — *Remote*
- Simulation optimization for traffic simulation.
- Finding the subspace for optimizing via the simulation model using a deep reinforcement learning model.

Graduate Research Assistant — Aug 2024 – Dec 2024
Virginia Tech — *Blacksburg, VA*
- Optimized U.S. lung allocation policy using high-performance computing and discrete-event simulation.
- Verified and validated a liver transplant simulation model via Bayesian optimization approaches.

Graduate Research Assistant — Dec 2021 – Aug 2022
Virginia Tech — *Blacksburg, VA*
- Developed a simulation model for U.S. lung transplant allocation and processed large-scale clinical data.
- Investigated modeling techniques to estimate lung allocation scores under uncertainty.

Researcher — Dec 2020 – Jul 2021
Logistics System Lab, Korea Aerospace University — *Goyang, South Korea*
- Collaborated on a multi-shuttle control logic for an automated container yard (CyberLogitec & Korea Maritime Institute).
- Developed job assignment algorithms for a new business model (Nexen Tire & SL Solution).

Research Assistant — Mar 2018 – Feb 2020
Logistics System Lab, Korea Aerospace University — *Goyang, South Korea*
- Analyzed automation logic for gantry cranes using simulation (Hanjin Logistics Institute).
- Evaluated methodologies for UAV path planning; conducted efficiency and performance analyses.

Research Intern Mar 2016 – Feb 2018

Logistics System Lab, Korea Aerospace University *Goyang, South Korea*

- Developed a vehicle routing problem (VRP) solution incorporating real map distances and operational constraints (SK Telecom & SL Solution).
- Built an unmanned logistics system with UAV pathfinding via Genetic Algorithms (Ministry of Land, Infrastructure and Transport).
- Analyzed a baggage handling system merging control logic using AutoMod.

Teaching Experience

Teaching Assistant, Virginia Tech 2022 – 2025

Department of Industrial & Systems Engineering and Department of Statistics *Blacksburg, VA*

- **Undergraduate Courses (ISE)**: Deterministic Operations Research, Logistics Engineering, Data Management, Statistical Quality Control
- **Undergraduate Course (Statistics)**: Statistics for Engineers
- **Graduate Courses (ISE)**: Random Process, Facilities Planning

Lecturer, Korea Aerospace University Spring 2021

Operations Research I

- Taught foundational linear programming concepts to sophomore-level students.

Teaching Assistant, Korea Aerospace University Fall 2018, Fall 2019

Analysis of Logistics Systems

Conference Presentations

INFORMS Annual Meeting 2024 Seattle, WA

- **H. Shin**, X. Chen, and S. Tunc. "Calibration of Simulation Models for Organ Allocation Using Conformal Prediction Concepts."

INFORMS Annual Meeting 2023 Phoenix, AZ

- **H. Shin**, X. Chen, and S. Tunc. "Forecasting Organ Transplant Allocation Scores Using Machine Learning Models."

Decision Science Institute (DSI) 49th Annual Meeting 2018 Chicago, IL

- **H. Shin**, J. Chae, and J.-H. Bae. "The Algorithms Solving Collision-free Shortest Path Planning for Mobile Agents: A Performance Review."

Korea Logistics Society 2018 Fall Conference Goyang, South Korea

- **H. Shin**, and J. Chae. "A Performance Review of Collision-Free Path Planning Algorithms for AGVs."

Society of Korea Industrial and Systems Engineering 2017 Spring Conference Daejeon, South Korea

- G. Gim, **H. Shin**, H. Lim, and Y. Yun. "Multi-modal VRP Algorithm with Trucks and Drones: A Case Study of Seoul."

Society of Korea Industrial and Systems Engineering 2016 Autumn Conference Seoul, South Korea

- **H. Shin**, M. Kim, and S. Lee. "Conveyor Merge Control Logic in Baggage Handling Systems."

Honors & Awards

ISE Graduate Student Travel Awards, Virginia Tech 2023–2024

Scholarship for Excellent Academic Records, Korea Aerospace University

- Undergraduate (2013–2017): 4 semesters
- Graduate (2018–2019): 3 semesters

Technical Skills

Languages: Python, C++, R, Java

Software Tools: AutoMod, Arena, ExtendSim, CPLEX, Gurobi

Methodologies: Simulation Optimization, Bayesian Optimization, Surrogate Modeling, Machine Learning, Deep Reinforcement Learning, Nonparametric Bayesian Methods, Parallel Computing

Operating Systems: Linux (Ubuntu/HPC), Windows (WSL)

Selected Coursework

- **Probability & Statistics:** ISE 5034 (*Math Probability & Statistics for ISEs*), ISE 5984 (*Stat Learning and Data Sci*) CS 5525 (*Data Analytics*), STAT 5114 (*Statistical Inference*), STAT 5444 (*Bayesian Statistics*), STAT 6105 (*Measure & Probability*), STAT 6474 (*Advanced Topics in Bayesian Statistics*), STAT 6544 (*Surrogate Modeling*)
- **Simulation & Stochastic Modeling:** ISE 5424 (*Simulation I*), ISE 6494 (*Advanced Simulation*), ISE 5414 (*Random Process*), ISE 6464 (*Queueing Networks*)
- **Optimization:** ISE 5405, 5406 (*Optimization I & II*)
